

Change Notice #253 Vicmap Elevation Advisory Notice

Vicmap Elevation

What is happening

Several changes are occurring to modernise the Vicmap Elevation suite of products. There are:

- The Vicmap DTM 20M product is being retired, and
- The Vicmap DTM 10M has been significantly updated with new and revised content
- The Vicmap DTM 10M will be renamed Vicmap 10M DEM

Why this change is occurring

The Vicmap DTM 20M is obsolete, and future maintenance and updating will only occur for the Vicmap DTM 10M dataset. The Vicmap DTM 20M will be archived and available on demand from Vicmap.

The Vicmap DTM 10M is updated at an ad-hoc basis with new content, as it becomes available.

The Vicmap DTM 10M is being renamed to Vicmap DEM 10M to align with more generic terminology used across other Australian jurisdictions, and to recognise that digital elevation models developed using the software product ANUDEM differ from digital terrain models (DTMs) due to their hydrologic enforcement.

Who will it affect

This change will affect users of Vicmap Elevation.

When the change will occur | How to provide feedback

The change will be implemented on the 01/10/2020.

For Vicmap Product change notices and bulletins, go to the [News and Bulletins](#) page.
