13 June 2023

Change advisory notice 299 Vicmap Basemaps: New Topographic Map Services

What is happening

From June 2023, two new services will be added to the Vicmap Basemaps suite of products to complement the existing Aerial, Cartographic and Overlay services:

- Vicmap Topographic (Colour)
- Vicmap Topographic (Greyscale)

These services are available in VicGrid2020 and Web Mercator projections.

Why this change is occurring

Vicmap Topographic continues to be available as a tiled service package. It utilises the same data and symbology content as the Vicmap Topographic GeoPDFS. Vicmap Topographic is now available as a hosted service included in the Vicmap Basemaps product suite.

Who will it affect

This change will affect all users of Vicmap Basemaps. Access to this new product is available as a tile package and a hosted tile service to internal customers (DEECA, DTP and Emergency Services Organisations). It is anticipated that access to external customers will be available from September 2023.

Vicmap Basemaps is a licenced and supported product and annual fees may apply.

When the change will occur

Changes are now reflected in the product.
